

Navigating the NetSource Service Agent Menu

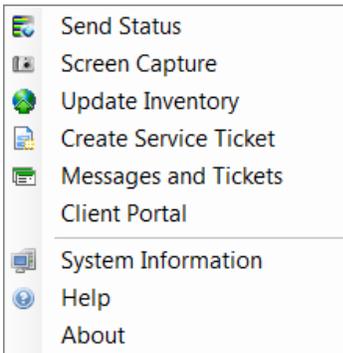

1. Click on **Show Hidden icons** if necessary to show your hidden icons.

2. Right-click on the **NetSource One Service Agent** Icon

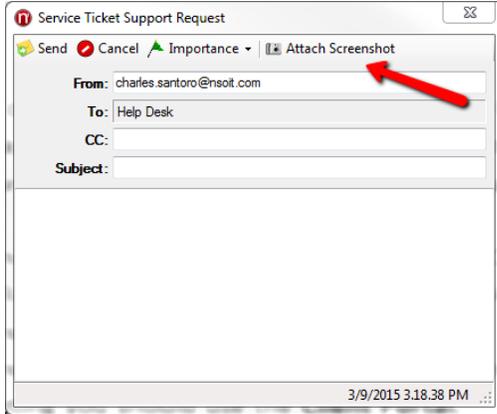

3. The following options appear and are explained in detail below :

Send Status:	Sends the status of your agent to NSO, updating the Last Contact date and time
Screen Capture:	Sends a screen capture to NetSource One for troubleshooting.
Update Inventory:	Sends the Software and Hardware information of your machine to NetSource One
Create Service Ticket:	Allows you to send a service ticket directly to NetSource One.
Ticket:	This does not utilize your email to send the request to NSO.
Messages and Tickets:	Allows you to view messages sent from NetSource One. Allows you to view tickets that were sent by you to NetSource Once. For detailed ticketing you should use the Client Portal .
Client Portal :	Allows you to access open tickets with NetSource One
System Information:	Displays the system information of the agent computer (e.g., computer name, domain, username, operating system, IP address, etc.)
Help:	Takes you to NetSource One's homepage: https://nsoit.com
About:	Displays information that can be provided to NetSource to identify your machine. Providing ID number will help NSO quickly pull up your machine for troubleshooting.

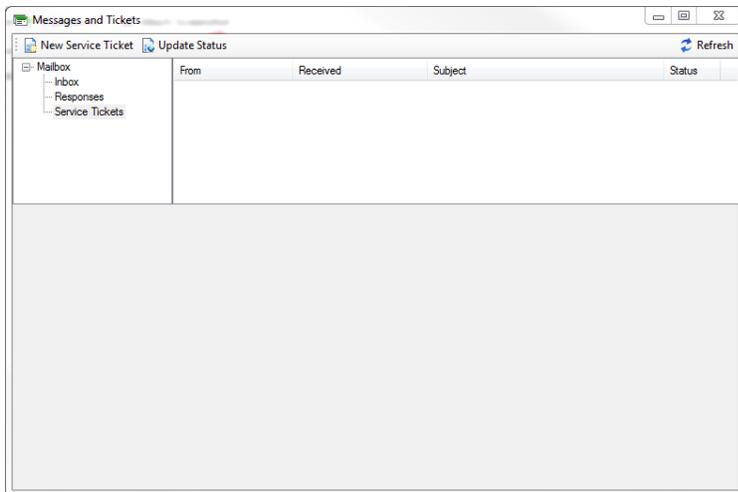

4. Choosing **Create Service Ticket** will present a ticket window:

Note you can **Attach Screenshot**. This can be useful when you have an error messages on your screen.

5. **Messages and Tickets** will display the following screen:

Note: For detailed information on open tickets you should use the **Client Portal** option.

6. The **Client Portal** will take you to <https://cw.netsource-one.com>. This is our main ticketing system.

Note you can check the **Remember Me** box if you choose.

Please contact NetSource One if you need or forgot your username and password.
